WHY USE ARECA LEAF PLATES?

Disposable palm leaf plates come from a renewable source.

- The making of disposable palm leaf plates doesn't aggravate deforestation, nor does it pollute or affect the environment in any other negative way.
- Because they are 100% natural, not containing any glue or glazing, disposable palm leaf plates are 100% biodegradable.
- Disposable palm leaf plates have a unique look, with a beautiful texture and soft colors that catch the eye and that add elegance to any party or wedding table.
- Compared to other types of disposable plates, palm leaf plates are relatively affordable.
- Unless you've used them for serving meat, disposable palm leaf plates can be washed and reused.
- Disposable palm leaf plates don't warp nor can they be easily pierced like plastic plates, making them a stronger, safer, more practical choice for meals that involve many courses.
- Once you're done with your disposable palm leaf plates, you can toss them into your home compost pile.
